

GREAT GUNS TO BOOM FOR KNOX

Arrangements for His Reception Today Are Now Complete.

GARDEN PARTY AT FREAR'S

Secretary Wirelessly His Approval of Plans for His Welcome.

Immediately upon his arrival this morning, Secretary of State and Mrs. Knox will go to the Moana Hotel where they will make their headquarters while in the city.

Such was the information received last night by Secretary of the Territory E. A. Mott-Smith in answer to the wireless despatch sent to Secretary Knox by Governor Frear. The arrangements made by the Governor for the entertainment of Secretary Knox met with the entire approval of that official as evidenced by his wireless reply which was as follows:

Program Pleases.

"Program entirely satisfactory. Going to Moana Hotel. Want conveyance for baggage."

At the Governor's home, "Arcadia," Secretary and Mrs. Knox will be the guests of honor at an informal garden party which will be given from four to six o'clock this afternoon. No formal invitations have been issued and the general public is cordially invited to attend.

Other arrangements are practically complete for the official reception to Secretary Knox upon his arrival early this morning on the cruiser Maryland from Seattle. Unless Secretary Knox makes some changes after his arrival it is proposed to tender him and his party an official reception in the throne room of the capitol beginning at ten o'clock this morning, at which Governor Frear will present to the distinguished visitor the foreign consuls, or majority of them who have not called upon the Secretary on board the warship.

Following the reception Secretary Knox will be the guest of the Governor at luncheon. Tomorrow morning it is proposed that Secretary and Mrs. Knox, Rear Admiral Reynolds and Ransford S. Miller, all of the Secretary's party, will make the trip around the island by automobile, stopping for lunch at the Haleiwa Hotel. The Maryland will sail Friday afternoon for Yokohama.

In answer to greetings by wireless from the Governor, the Secretary wirelessly as follows yesterday morning: "Thanks for your cordial message. We expect to arrive Thursday morning, leave Friday afternoon. Party consists of Mrs. Knox and self, Mr. Miller and Admiral Reynolds."

Guns Will Boom.

When the cruiser Maryland reaches the harbor early today she will be greeted with a salute of seventeen guns in honor of Secretary Knox and later when Rear Admiral Reynolds pays his respects to Rear Admiral Cowles at the Naval station he will receive a salute of thirteen guns, as will follow the return call of Admiral Cowles.

According to the present plan it is probable that several of the foreign consuls will call upon the secretary on board the warship, in which case there will be more saluting. Among these it is planned by Acting Japanese Consul Y. Mori to pay his respects in an untentious manner as possible on board the warship, due to the period of mourning for the death of the Emperor.

Mott-Smith in Charge.

The reception of the acting Japanese consul will be singularly appropriate as Secretary Knox is now on the way to Japan as the official representative of the United States at the funeral ceremonies of the late Emperor.

Secretary of the Territory Mott-Smith is in personal charge of the arrangements for the receptions and formalities attending the visit of Secretary Knox and yesterday had a brief conference with Acting Consul Mori relative to his reception by Secretary Knox and he will probably be the first foreign consul to be received.

The official party on board of the Maryland has been in touch by wireless for the past two or three nights with the naval wireless station and it is expected that by today there will be an answer by cable to the wireless message sent Tuesday night to the local station and from here cabled to Tokyo, asking for information regarding the arrangements under way for the reception of the Secretary of State and his party.

SERVE NOTICE ON RAPID TRANSIT

Campbell Gives Company Ten Days to Commence Laying Bitulithic.

THEN ACTION WILL START

Suit to Cancel Charter Will Be Started—Ballentyne Says: "Go Ahead."

Formal notice will reach the offices of the Honolulu Rapid Transit Company this morning warning that corporation that an action will be commenced in the courts to annul its charter if the paving of the company's tracks on King street with bitulithic or some similar and equally satisfactory paving material be not commenced within ten days.

The notice, prepared in the office of the attorney general, was signed shortly after noon yesterday by the superintendent of public works and mailed to the company. It is short and to the point. It calls attention to the charter obligation of the company to keep that portion of the streets occupied by its right-of-way in repair and paved in such a way as to conform with the rest of the street; it calls attention to the fact that the portion of the right-of-way on King street, between River street and Nuuanu has not been paved with bitulithic as has the rest of the street and it gives the street car company just ten days from today to start work.

If work is not started by that time, says the notice, immediate steps will be taken by the superintendent of public works to have the charter of the company annulled, on the grounds that it has failed to live up to its franchise obligations.

Advertiser Breaks the News.

Superintendent Ballentyne of the rapid transit company received his first news of this notice from The Advertiser last night and appeared considerably astonished to hear that such a step had been taken by the territorial officials. There was no particular alarm with the astonishment, however. "We have no particular fear of any suit going against us," he said, "no matter whether the threatened action is to be mandamus proceedings or quo warranto. As a matter of fact, we have invited mandamus proceedings some time ago, being just as anxious as anyone else, for our own protection, to have an authoritative ruling from the courts on this question."

Wanted Ruling Before.

"We wanted to take the matter to the United States Supreme Court when it had reached our local supreme court, but the authorities fought this move on our part and left the matter just as it was before the courts touched it."

An Overlooked Clause.

"There is one clause in our charter which it appears the superintendent of public works has overlooked, in his anxiety to prevent us using obia block paving—which is the sole object of his anxiety in this matter, so far as I can make out—and that is the clause empowering him to perform any of the work we should do and fail in. I should think he would start in and lay the bitulithic at our expense, if he is so anxious to put down that kind of paving. If he is going to be such a stickler for the letter of the law, let him carry out his part of the law."

"We have just placed an order with the Hawaiian Development Company for obia blocks for King street, which we will season and have ready to lay when this proposed lawsuit is over. Without the suit we would have them in shortly."

"Of course, we will take the matter to the Supreme Court. How long that will take is to be seen."

PLANT TREES FOR FAIR.

Big Palms Set Out in Lobos Square, Part of the Harbor View Site.

SAN FRANCISCO, August 21.—Palm trees weighing 4500 pounds are being planted in Lobos Square in preparation for the Panama-Pacific International Exposition, by a squad of men under the supervision of John McLaren, landscape engineer of the exposition.

Lobos Square is a part of the Harbor view exposition site. The trees are being planted for experimental purposes. Mr. McLaren is sanguine that the trees which have come from the interior will take root and flourish and if at the end of twelve months they show signs of life, they will be transplanted along the Esplanade or some other picturesque section of the grounds.

Some of the trees received yesterday are twenty feet in height and their branches are thirty feet in length. More palms are needed and owners of such trees who are desirous of donating them should notify the exposition. Mr. McLaren states he will send men to dig up the trees and transport them to the site. At the close of the world's fair in 1915 these trees will be removed to Golden Gate and other parks in this city.

(By Federal Telegraph Wireless.) SHOULD KICK OUT SENATOR PENROSE

So Asserts Colonel in Letter to Senator Clapp, Head of Probe.

(By Federal Telegraph Wireless.) OYSTER BAY, Long Island, August 28.—(Special to The Advertiser)—Colonel Roosevelt declared today that Senator Penrose should be ousted from his seat in the senate for the testimony he has given regarding the campaign contributions to the Republican campaign fund of 1904. Colonel Roosevelt said that he had taken this stand in a letter to Senator Clapp of the senate committee investigating the campaign contributions which the Rough Rider is now preparing. The Colonel made the statement after he had read what purported to have been part of the testimony given by Senator Penrose at the hearing of the committee, to the effect that he, Penrose, had advised John D. Archbold, of the Standard Oil Company, to make a second contribution to the fund, "lest they encounter trouble in a certain high quarter."

HELEN KELLER CAN SING NOW

BOSTON, August 16.—Miss Helen Keller, born blind, deaf and dumb, has learned to sing. It was the wonderful girl herself who announced it—and over a telephone, at that.

Unceasing in her efforts to overcome her triple handicap, she has been taking vocal lessons for some time, and this afternoon she is to sing before the Otological Congress meeting at the Harvard Medical School.

However, she talked last night over the telephone, and so clear was her enunciation that the reporter did not realize until told afterward that it was Miss Keller herself with whom she had talked.

In asking the telephone operator for Miss Keller's number at Wrentham the reporter thought it superfluous for the operator to ask: "Will you talk with any one else if Miss Keller is not there?" Then over the wire came a voice, low but distinct, each syllable pronounced perfectly. Miss Keller answered in the third person questions about her singing. Suddenly the voice ceased, and a louder voice announced: "Miss Keller doesn't feel like talking any more."

Born deaf, blind and dumb, Miss Keller has steadily overcome one after another of her handicaps. It was only five years ago that she delivered a speech at the convention of the blind in Boston.
